

For Charging Station Producers

Hardware

Guaranteed future-proof.

Easy to charge up with and customer friendly, all in one uniformly accessible charging network – key factors for helping electromobility achieve its global breakthrough. With interchange CHECK you can show customers that your charging stations are compatible with the world's most successful eRoaming network.

Visibly successful

With interchange CHECK you develop a progressive image and new profit models in the world's biggest charging network.

AT A GLANCE

Positive public image

Show your business and private customers that your charging stations meet the requirements of the market.

Innovative business models

Open up new sources of income by fulfilling the requirements for cross-provider eRoaming.

Platform for your image

Use Hubeject partner sites as an advertising platform and to build up your network.

Extend your product portfolio

Extend your systems to include eRoaming functionality.

WHAT WE OFFER

Hardware-Check

Assess your hardware using a standardised checklist

intercharge certificate

The intercharge CHECK seal guarantees that your charging systems are compatible with the Hubeject eRoaming platform
