

For eMobility Service Providers

Plug into the world's charging network.

Expert or new to the market: interchange EMP is the gate to the world of eMobility for car manufacturers and power suppliers, telecommunications companies and transport providers. Open up your core business to innovative revenue models. Offer your customers all the benefits of the world's biggest and most advanced EV charging network. Grow and evolve with interchange EMP.

Growth

Scale it up. Expand your product portfolio with interchange EMP and open up new business areas in the growing eMobility market.

Range

Extend your reach. One contract gives you access to the world's biggest charging network, which is growing all the time: in 2018 alone, we managed to sign up over 100 new interchange partners.

	TRY	SMALL	MEDIUM	LARGE

Innovation

Ready to rise. Our business development is constantly coming up with innovative eMobility solutions for intuitive handling and maximum customer convenience. Digital value-adding services on the Hubject B2B platform let your customers profit from these developments.

Convenience

Global Ease. Your customers get access to the world's biggest charging network using any common access modality. It's as simple as that.

WHAT WE OFFER

Information

Static and dynamic data from charging stations in the interchange network allows you to evaluate your charging patterns in the best possible way. Hubject makes it happen.

HighTech Platform

Future-proof, intuitive, proven, safe and ultra-fast: Hubject's new IT platform is at the heart of our mission – and the driving force behind global eMobility growth. Flexible microarchitecture, user-friendly interfaces and numerous intelligent value-adding services make it the most advanced platform in the world.

Seamless Support

We make things easy for you: our support team is ready to assist you at every stage of the connection process

Freedom of Choice

Your customers have the choice: charging points are activated directly by scanning the QR code in the interchange symbol, via apps and membership cards or most convenient through ISO 15118 based Plug&Charge.
